

#### **FEATURES**

- Universal 85 305VAC or 120 430VDC Input voltage
- Accepts AC or DC input (dual-use of same terminal)
- Operating ambient temperature range: -30 $^\circ$ C to +70 $^\circ$ C
- Low standby power consumption, high efficiency
- High I/O isolation test voltage up to 4000VAC
- Low ripple & noise
- Output short circuit, over-current, over-voltage protection
- IEC/EN/UL62368, EN60335, EN61558, GB4943 safety approved
- Over-voltage class III (designed to meet EN61558)
- Operating altitude up to 5000m

LM50-23Bxx series is one of Mornsun's enclosed AC-DC switching power supply. It features universal AC input and at the same time accepts DC input voltage, cost-effective, low no load power consumption, high efficiency, high reliability and double or reinforced insulation. These converters offer excellent EMC performance and meet IEC/EN61000-4, CISPR32/EN55032, IEC/UL/EN62368, EN60335, EN61558, GB4943 standards and they are widely used in areas of industrial, LED, street light control, electricity, security, telecommunications, smart home etc.

### **Product Characteristic Curve**

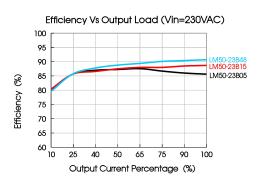

Note: 1. With an AC input voltage between 85 -100VAC and a DC input between 120 -140VDC the output power must be derated as per the temperature derating curves;

2. This product is suitable for applications using natural air cooling; for applications in closed environment please consult Mornsun FAE.

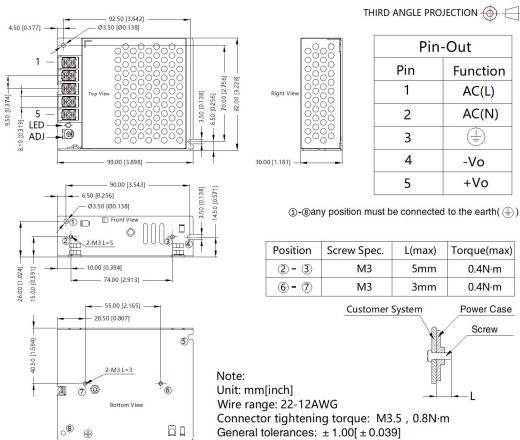

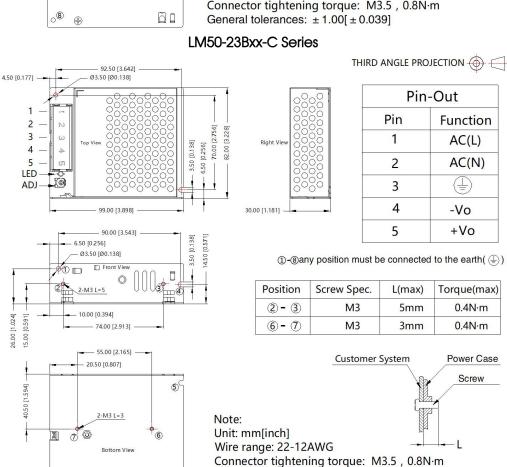

### Dimensions and Recommended Layout

#### LM50-23Bxx, LM50-23Bxx-Q Series

4

MORNSUN Guangzhou Science & Technology Co., Ltd.

General tolerances:  $\pm 1.00[\pm 0.039]$ 

#### Note:

- 1. For additional information on Product Packaging please refer to <a href="https://www.mornsun-power.com">www.mornsun-power.com</a>. Packaging bag number: 58220118;
- 2. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 3. The room temperature derating of  $5\,^\circ\text{C}/1000\text{m}$  is needed for operating altitude greater than 2000m;
- 4. All index testing methods in this datasheet are based on our company corporate standards;
- 5. In order to improve the efficiency at high input voltage, there will be audible noise generated, but it does not affect product performance and reliability;
- 6. We can provide product customization service, please contact our technicians directly for specific information;
- 7. Products are related to laws and regulations: see "Features" and "EMC";
- 8. The out case needs to be connected to the earth  $(\stackrel{\frown}{=})$  of system when the terminal equipment in operating;
- 9. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
